(12:40 p.m. - 13:00 p.m.)

(13:00 p.m. - 13:20 p.m.)

(13:20 p.m. - 13:40 p.m.)

DESCRIPTION We specialize in the complex implementation of communication infrastructure, such as, railway lines and stations, tramway lines, roads and streets, and civil engineering. As part of our business profile we provide services in the areas of construction, modernization and repair of overhead power and cable networks, traffic lights, street lighting systems and telecommunication networks, and services in the field of communication investment design. The vehicle and machinery base of our company consists of more than 70 specialized units which allow us to perform most of the commissioned work independently (mainly: SUM312 track renewal machine, UNIMAT 08-275/3S and SCM09-32 tamping machines, USP5000 and SSP110SW ballast profiling machines and RM74 ballast cleaning machines with MFS40 loose material conveyors and PTH350 gantry cranes).
