(13:00 p.m. - 13:20 p.m.)

(13:20 p.m. - 13:40 p.m.)

DESCRIPTION As the first company in the market, we specialize in the production of energy-efficient and ecological building materials of a new generation, inspired by the American and Western Europe markets. H-Block® is patented, box shaped structural insulated panel made of polyurethane foam permanently combined with wood-based OSB panel. Panels are connected with special LHB joints also filled with polyurethane foam in order to reduce thermal bridges effect and ensure air tightness of a building. Unique mechanical and thermal properties of H-Block® make H-Block® the perfect material for the construction of energy efficient and passive buildings.
